

WHAT YOU NEED TO KNOW ABOUT OVERDRAFTS AND OVERDRAFT FEES

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. Overdrafts will be determined based on the available balance in your checking account at the time a check or item is presented. Your available balance may be lower than your actual balance due to funds held for debit card transactions you have authorized, and deposited checks held pursuant to our funds availability policy. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer overdraft protection plans, such as a link to another account or a line of credit, which may be less costly than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our standard overdraft practices.
